Hypnosis Training

*Intensive Training
with Greta Mildenberg
and Roger W. Vaisey*

**Gutshaus Stellshagen/Ostsee
8th – 17th September 2017**

HYPNOSIS TRAINING

This training is for people who are interested in working with people and who want to learn how to consciously use language in a way that supports obtaining the goals that you and your clients want. The training is also suitable for people who just want to experience hypnosis for themselves. It is furthermore an excellent addition for anyone who already has any NLP training or has trained in “The Journey” work of Brandon Bays.

In these 10 days you will become grounded in the basics of Hypnosis as practiced by Dr Milton H. Erickson, as well as other traditional hypnotic induction and utilization techniques. You will also learn specific tools for relaxation, self healing, meditation and self hypnosis.

A particular concern of the Ericksonian approach to hypnosis is the science of communication between the conscious and unconscious minds. You will learn how you can use language to facilitate this sort of interpersonal communication. Milton Erickson was famous for the deep respect and love he brought to his work. His main concern was to connect people to their own abilities and rich life experiences. The way he specifically used language and his understanding for how the unconscious mind functions, made his work highly effective and deeply impactful for his clients.

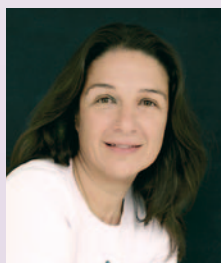

The training will consist of theory, demonstrations, practice and self experience. All procedures, methods and teachings will be explained theoretically, demonstrated and then

practiced so that each participant will get a good experiential understanding of the work. It will be a multi level course learning practical hypnotic skills that you can use in what ever your work or interest is, and at the same time an amazing opportunity for your own inner growth and development through the daily experience of individual and group trances.

Certification

There is the possibility for suitably experienced people to obtain a certificate from the American Board of Hypnotherapy. Further information upon request.

GRETA MILDENBERG

Greta Mildenberg is a lawyer, certified Master of Hypnosis, certified NLP Master Trainer and certified member of the Global Trainer and Consultancy Network (GTC). Greta has been trained by the most important developers of Hypnosis and NLP namely Richard Bandler, Brian Alman, Steve Gilligan, Ragini Michaels, and has a Master Hypnotherapy certificate from Dr Tad James, director of the American board of Hypnotherapy. She has worked successfully and intensely for the past 17 years with many applications of Hypnosis particularly in the area of

emotional, physical and psychological health. Greta has experience in training, supervision and session work all over the world. She is also trained in systemic family therapy, movement, and neo-reichian bodywork, being a certified trainer of Kelley-Radix work. Her unique and focused approach to training effortlessly transmits the essential qualities of hypnosis so that participants find with delight that they can easily understand and can actually do themselves the hypnotic skills being presented.

ROGER W. VAISEY

Roger is a certified Master Hypnotherapist, certified NLP Master Trainer and certified member of the Global Trainer and Consultancy Network (GTC). He is a highly acknowledged international trainer.

He trained and collaborated with Ragini E. Micheals, author of “Facticity - a door to Mental Health and beyond”, and also trained with Brian Alman, Steve Gilligan, Robert Dilts, Judith Delozier and Carl Simonton. He has been working intensively with Ericksonian Hypnosis and NLP in individual sessions, supervision and trainings since 1987. Roger brings a multidimensional systemic approach to his work. He is particularly interested in exploring the many uses of hypnosis especially in the areas of creativity, self healing, compulsions and addictions, and how to raise individual self esteem. His humour and many years of experience working in the field bring an easy lightness and a relaxed and enjoyable approach to the trainings.
